

REMARKS

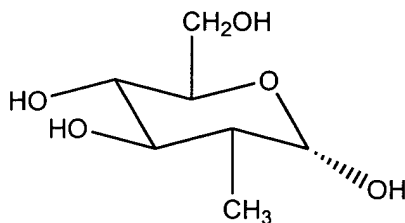

Status of the claims

Claims 1 to 32 were pending prior to this Amendment. Claims 2 to 13 and 18 to 27 had been withdrawn from consideration. By this Amendment, claims 1 to 27 have been cancelled and claims 28, 29, and 31 have been amended. Accordingly, claims 28 to 32 are pending.

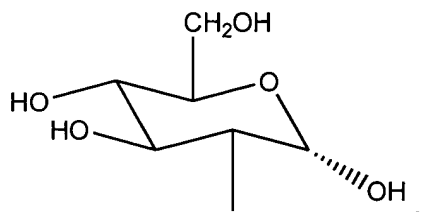

Amendments to the claims

Applicants have cancelled claims 1 to 27 to advance prosecution, and without prejudice or disclaimer. Applicants reserve the right to pursue these claims in this or a continuing application.

Applicants have amended claims 28, 29, and 31 in the manner suggested by the Examiner in the Interview Summary dated September 12, 2005, as well as to correct an obvious error. With respect to the obvious error, Applicants submit that the structure

was erroneously not represented as a radical. One of ordinary skill in the art, upon reading the as-filed specification, such as Example 1 (paragraphs [076] to [080]) and Example 3 (paragraphs [084] to [086]), would realize that the structure should have been drawn as a radical represented by the following structure:

Accordingly, claims 28, 29, and 31 have been amended to correct this obvious error.

No new matter has been presented and entry of this amendment is therefore respectfully requested.

Terminal disclaimer

In the *Ex parte Quayle* Action, the Examiner has indicated that claims 28-32 are in condition for allowance, subject to a terminal disclaimer over U.S. Patent No. 6,585,962, and the amendments to the claims set forth above. Applicants include herewith the appropriate Terminal Disclaimer and respectfully request allowance of the claims.

Please grant any extensions of time required to enter this response and charge any additional required fees to our Deposit Account No. 06-0916.

Respectfully submitted,
